You are the most amazing students!

I have met you all and observed your dedication to learning. Not only are you enjoying your classes, but you are also constantly learning how to be friends.

This month, as we celebrate Veteran's Day, Grandparents' Day, and Thanksgiving, let's remember to be grateful for our country, family, school, and friends. It is great to be thankful in our thinking, but there are also ways we can show thankfulness.

Mrs. Sutton's Desk

It is a wonderful idea to keep a thankfulness journal, and you can write what you are grateful for every day. You can also show your appreciation for others by taking or sending them a card or flowers, calling them and letting them know how thankful you are for having them in your life, or taking/sending them a treat like cookies or bread. The idea is to turn our focus to others and how we can show our appreciation for them.

When we bring happiness to others, we make ourselves happy too.

Fun facts about our advisory

Shadow has only been a part of our class for a few weeks now, but he already feels like he has been with us much longer.
- Last week our class went to the **John Bunker Sands Wetland Center**, where we learned about the reservoir, the animals that live there, and how water cleans itself naturally through the plants and animals that inhabit it. Fine Arts - 5th grade Art

Currently, 5th grade is learning about proportion, specifically a face's proportion. Students are discussing the work of Brazilian artist Roberto Britto and how he uses patterns and bright colors in his paintings.
