April 2020

SHELTON CHARGERS

e-LEARNING COLORING BOOK!

This coloring book was created by the Upper School Studio Art class in April 2020, during Shelton's e-Learning experience due to the necessary school closure from the COVID-19 pandemic.

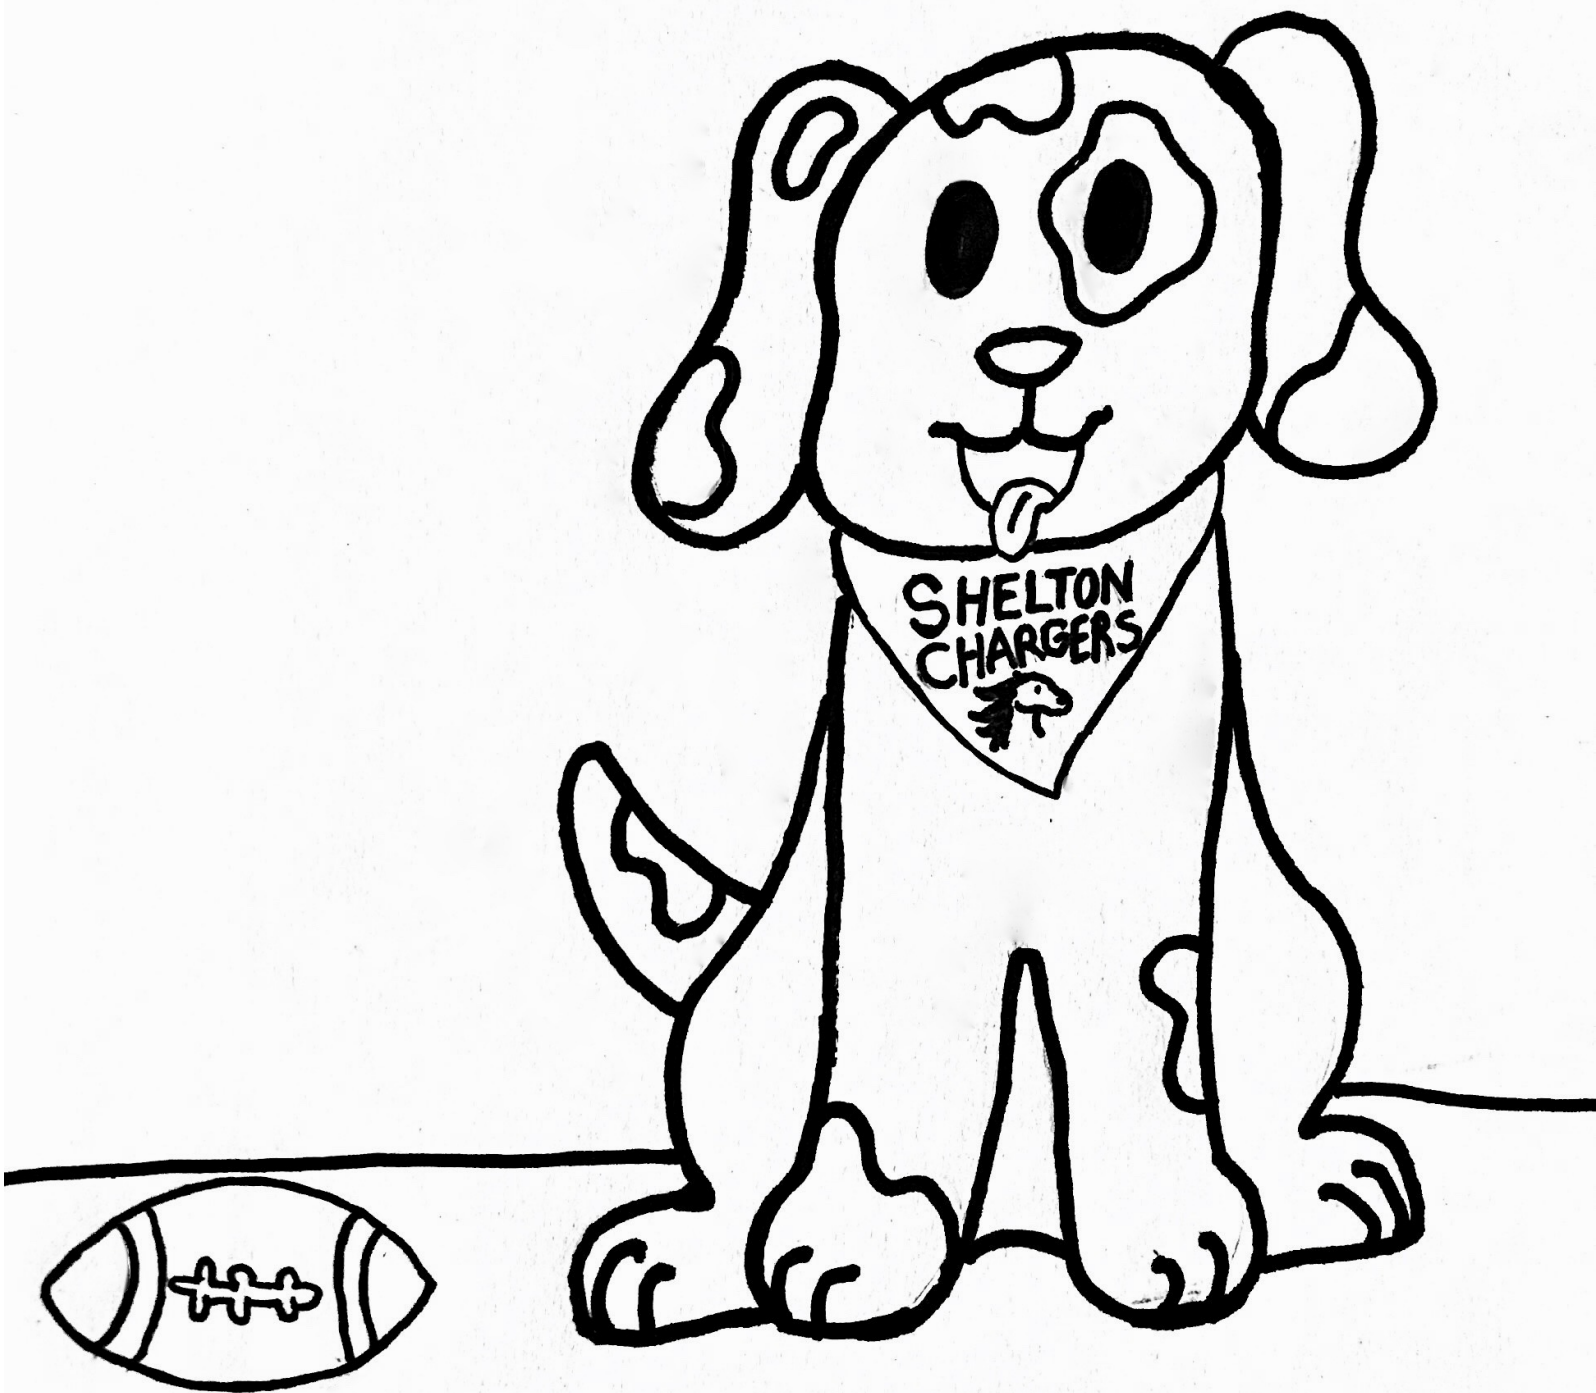

Each student in the class created a line drawing with a Shelton theme. The drawings were combined together in this book.

Please print to enjoy coloring and adding to these drawings!

You may send in a photo or scan of your favorite, finished coloring page and we will post it online. (Note: For safety reasons, please do NOT write your name on your drawing!)

CHARGERS

BLACKBIRD SR-71

Did You Know? From its creation in 1964 until its retirement in 1998, the Blackbird SR-71 remained the world's fastest (and highest flying) piloted aircraft. On July 28, 1976, an SR-71 broke the world speed record for its class by reaching speed of 2,193mph.
